FRIDAY, March 7-P. M.

The speculation at the Stock Exchange to-day has

een on a more limited scale than for some time past.

This remark applies to the general list, while in cer-

tain leading favorites, a large and active trade was

55| again. Panama was strong, and sold up to 120|,

and closed at 119]. Harlem proved the notable card

of the afternoon, and made a daring push upward

from 128; to 126; on a dispatch from Albany that

the Assembly Committee on Railways had re-

ported favorably on the bill authorizing the New-

York and Harlem Company to extend their

tracks for small scars through this city. This

sudden rise was the card of the day, and struck

with surprise those who knew that sellers 60 days'

options had been put out only 10 or 12 days ago at

130. The general condition of speculation remains

much as heretofore. The investment stocks were quiet, and the miscellaneous shares other than Pa-

cific Mail and Telegraph neglected, though we may

report a sale of Quicksilver Preferred at 542, and

Canton at 102. The coal shares were more active,

under an advance in Euglish coals. Consolidation

advanced to 541@54, and Central to 46@451; Ameri-

can sold at 57. In express stocks Adams fetched 95,

and United States 73. The opening highest, lowest,

higher price, has undergone no change in its peculiar features. The opening price of gold was 1151. from which it rose to 115;, declined to 115;, and then returned to 115; again, and before the close took a stand at 115%, as consols became easier and cash gold more difficult for delivery. United States bonds in London were, however, held strongly, and money ruled considerably below the Bank of England rate. Loans cost for carrying 2, 3, 4, 5, and 3 per cent per annum, to flat for borrowing, while after clearing hours as much as 1-32 was paid for the use of The scarcity of available gold on the market as and. compared with last year is now becoming seriously capitalists by Messrs. The Assistant Treasurer redeemed \$700 in called bonds, and paid out \$60,000 in coin interest. The day's business at the Gold Exchange Bank was as follows: Gold cleared, \$68,463,000; gold balances, \$2,038,101; currency balances, \$2,416,936. The imports of dry goods for the week were to the specie value of \$4,083,514, the amount marketed being \$4,482,197. The following are the quotations of gold : The day's business at the U. S. well, yesterday, concerning "them \$44,000,000 legal tenders" there was a better disposition on the part of lenders this morning to accommodate borrowers, and so for a time stocks were turned at 1-64 and interest to 1-32. But later the market stiffened, as borrowers held off in expectation of getting money cheaper, until at last, being forced into the street they were compelled to pay in extreme cases as much as 1 and interest, and 1 flat freely, the market closing with bidding at 1-16 and interest. The rates of interest on currency on time are 7 per cent, with a commission of 1 for 30 days and 1 for 90 days. Mercantile paper is dull. Government bonds were firm on the general list, and

strong and higher for the new Fives, which advanced to 1137, and closed at 1134@1132. It will be noticed on the printed sales list above, that at the final call \$40,000 of these bonds are reported as going at 113, and \$30,000 at 112), seller three days. We are assured that this is an error, and that no such legitimate operation occurred, as orders were in for large amounts at 113}. This transaction, we infer, was either surreptitiously placed upon the telegraph tape, or was a misprint of the Stock Exchange printer. The market closed firm, on the basis of 1161@116? for 1867s. V driven. At the opening the market was strong on the reported declaration of Secretary Boutwell, yesterday, asserting his right to issue \$44,000,000 legal tenders. Later the market became drooping, and afterward irregular, until the final hour of dealing, when it became very dull, and wound up weak on the excessive rates of money. The leading features were New-York Central, Lake Shore, Rock Island, Pacific Mail, Western Union Telegraph, and C., C. and I. C., these stocks representing the course of the market, as briefly alluded to above, though the fluctuations in the rest of the active list were confined within very narrow limits. Erie was weak all day, and finally went off to 651-a decline of 1 per cent. There seems to be great difficulty, also, in holding up Western Union, and whenever the price strikes a high figure, a flood of sales breaks the price down again. Pacific Mail was lifted from 55; to 57;, but was depressed to

City bank shares were quiet, the transactions being in Broadway at 290; Hanover, 106; Metropolitan, 134; Mechanics' Banking Association, 107; Continental, 80; Park, 146, and Central National at 98.

The following were the bids:

There was a pretty good business done in railroad bonds. The Pacific mortgages were steady, except in Union Incomes, which declined from 71 to 70t. with sales at both these figures. Central sold at 104@1032, Western at 942@95, Union Firsts at 861@863, and Land Grants at 77%. There was less done in Eries, the only sale being in Fifth mortgage, which sold at 97. BANKING AND FINANCIAL. INVESTMENT BONDS.

The NORTHERN PACIFIC RAILROAD COMPANY has now in full operation, with regular daily trains, 321 miles of road. A distance of nearly 200 miles more is constructed. The Minnesota Section, immediately on its completion, entered upon a satisfactory business, including local traffic and the large carrying trade of the North-Western British Settlements and the Hudson's Bay Company. The recently completed section of 65 miles, on the Pacific Coast, at once commands a profitable business between Puget Sound and the Columbia River, heretofore done by coastwise steamers. On the opening of Spring, with more than 500 miles of Road in regular operation, the Company will control the extensive and productive trade of the Upper Missouri, much of Montana and the North-West. The earnings of the Road for 1878 will be large. Arrangements for pushing construction vigorously

the present year are progressing satisfactorily. Of nearly Ten Million acres of land accruing

to the Company in connection with the portion of Road now virtually constructed, some Two Million acres, of excellent average quality, are in market, and their sale and settlement progressing. The average price thus far realized is \$5.66 per acrewhich is at the rate of more than \$100,000 per mile of road for the whole grant. The Company has already begun the process of

redeeming and canceling its First Mortgage Gold Bonds, as they are now being received at 1.10 in payment and exchange for the Company's lands.

With these accomplished results and most favorable prospects, the Company is now selling its First Mortgage 7-30 Bonds for the purpose of completing its line of road. We recommend them as a well secured and unusually profitable investment. They have the following elements of strength and safety: They are the obligation of a strong corporation; they are a First Mortgage on the Road, its Right of Way, Telegraph Line, Equipments and Franchises, and a first lien on its Net Earnings. In addition to this usually sufficient security there is pledged for the payment of principal and interest a Land Grant of 12,800 acres per mile of road through the States, and 25,600 through the Territories.

The rate of interest (seven and three-tenths per

cent, gold.) is equal now to about 81 currency Gold

Checks for the semi-annual interest on the Registered Bons are mailed to the Post-Office address of the owner All marketable securities are received in exchange on most favorable terms. For sale by Banks and Bankers generally. JAY COOKE & Co.

BANKING-OFFICE OF FISK & HATCH,

No. 5 Nassan-st., New-York, March 5, 1873. The CHESAPEAKE and OHIO, the CENTRAL PACIFIC, and Western Pacific Bonds, all of which have been negotiated by us, we believe to be among the best and most desirable Investment Securities in the market which in time must become very scarce; especially as the Government will probably pay off, in gold during the year, \$300,000,000 FIVE-TWENTIES, and large amount of capital thus released from investment must be absorbed into this class of securities.

The CHESAPEAKE and OHIO SIX PER CENT GOLD Bonds, the total amount of which is only \$15,000,000 are secured upon a property worth \$25,099,000 to \$40,000,000, and are fully equal in intrinsic value to the Central Pacific Bonds. They are issued in de nominations of \$100, \$500, and \$1,000 coupon or regis tered, and at their present market price, 871 and accrued interest, are very desirable,

The CENTRAL PACIFIC SIX PER CENT GOLD BONDS are too well known to require description or commendation. Their total amount is \$35,835,000; they have for a long time ranged in market price near or above par. Their price to-day is 104@1011.

The WESTERN PACIFIC SIX PER CENT GOLD Bonds amount to \$3,735,000. This road is now consolidated with the CENTRAL PACIFIC, and the payment of its bonds, principal and interest, is assumed by the latter. As they have recently been introduced on the Stock Exchange, we expect to see them rapfelly rise to the price of CENTRAL PACIFICS, being substantially the same in character and value Coupon Bonds, \$1,000 each. Their market price to day is 941 to 95.

We buy and sell as usual Government Bonds in ceive deposits, on which we allow interest, make collections, and conduct a general banking business in all its branches. Fisk & Haren. THE NEGOTIATION OF TEN MILLION DOLLARS of
